WordPress 2.9.1 January 4, 2010

After over a million downloads of WordPress 2.9 and lots of feedback from all of you, we're releasing WordPress 2.9.1. This release addresses a handful of minor issues as well as a rather annoying problem where scheduled posts and pingbacks are not processed correctly due to incompatibilities with some hosts. If any of these issues [...] [...]

Early 2010 WordCamps January 4, 2010

Rested up from the holidays? I hope so, because the new year has begun and a lot is going to be happening with WordPress in 2010, and you definitely want to be a part of it. Later this week the scope for version 3.0 (featuring the addition of MU functionality to the WordPress codebase) will [...] [...]

Attributes

Parent: Main Page (no parent)

You can arrange your pages in hierarchies. For example, you could have an "About" page that has "Life Story" and "My Dog" pages under it. There are no limits to how deeply nested you can make pages.

Template: Default Template

Some themes have custom templates you can use for certain pages that might have additional features or custom layouts. If so, you'll see them above.

Order: 0

Pages are usually ordered alphabetically, but you can put a number above to change the order pages appear in.

WordPress 2.9.1 January 4, 2010
After over a million downloads of WordPress 2.9 and lots of feedback from all of you, we're releasing WordPress 2.9.1. This release addresses a handful of minor issues as well as a rather annoying problem where scheduled posts and pingbacks are not processed correctly due to incompatibilities with some hosts. If any of these issues [...] [...]

Early 2010 WordCamps January 4, 2010
Rested up from the holidays? I hope so, because the new year has begun and a lot is going to be happening with WordPress in 2010, and you definitely want to be a part of it. Later this week the scope for version 3.0 (featuring the addition of MU functionality to the WordPress codebase) will [...] [...]
